Subject: New CEP Message

This is an automated email response from Community Engagement Panel Date Sent: 5/16/2017

First Name: Andy

Last Name: Jacobs

Email address: [REDACTED]

City: [REDACTED]

State: CA

Message: During the May 11th CEP meeting, SCE's Tom Palmisano showed a slide with the SONGS 20 year plan and it showed that the Environmental Impact Report and Coastal Development Permit would be released for public review and comment around the 3rd qtr 2017. Will the CEP provide links to these documents for public viewing, or how might I otherwise gain access to review once they are out for public review?

Thanks

Response

Hello Mr. Jacobs,

Thank you for your email.

We appreciate your attendance at the May 11 CEP meeting and look forward to having you attend future CEP meetings.

Currently the State Lands Commission is preparing a draft Environmental Impact Report that is expected to be released during the third quarter of the current year. We want to ensure the public is aware of such materials and will be communicating additional information as soon as the State Lands Commission makes it available. Information will be posted on the www.SONGScommunity.com website. Further, I encourage you to check the website routinely and sign up to received email updates.

Thank you for your interest in the decommissioning of San Onofre.

Esther Soto
